INTRODUCTION

The National Clearinghouse for Bilingual Education has identified forty human resource files in bilingual education which are currently maintained by publicly supported agencies. The entries in this guide are listed alphabetically first by state, then by city and institutional name. Information about geographical service area, type of file, number of consultants, areas of expertise of consultants, and language proficiency of consultants is provided. An index to geographical service areas appears at the end of the book. For information about specific consultants, the user should contact the organizations maintaining the files.

In preparing the guide, the Clearinghouse contacted by telephone Title VII Training Resource Centers, National Origin Desegregation Assistance Centers (Lau Centers), and state education agencies. Organizations which indicated they had human resource files provided more specific information by mail.

The material presented in this publication is paralleled by a detailed record in NCBE's database. The abbreviation GH is an internal descriptor designed to distinguish these entries in the database. Periodic updates will be made with regular revisions of this document.

The National Clearinghouse for Bilingual Education gratefully acknowledges the efforts of all those who collaborated. Users are invited to submit additions and suggestions for future editions of this publication.
